ARTIFICIAL GRASS PROVIDES THE PERFECT LAWN

Artificial Grass & Landscaping Inc. (AGL) can install a perfect lawn for your yard that doesn't require harmful pesticides, any lawn care chemicals or even a lawnmower to maintain. It looks realistic and is safe for children and pets.

AGL's artificial grass is made from environment-friendly polyethylene blades and a woven fibreglass backing for durability and drainage. The blades are soft and the backing has multiple layers to prevent stretching, tearing or premature breakdown.

All materials are 100 per cent recyclable. The rubber is made from recycled tires that have been specially processed to prevent breakdown or decay no matter what weather conditions exist. It's UV-protected so it won't fade.

Choose from a variety of colours from dark green to a two-tone combination of light and dark blades. An eight-year warranty is included.

For more information visit our Showroom at

1040 South Service Road, Ste. 4, Stoney Creek, Ont. L8E 6G3.

Call 905-643-5000 or 1-877-88-GRASS. Visit www.aglgrass.com.
